

PRATEEK VASHISHTHA

AI Forward Deployed Engineer

+91-932-9654-621 • Noida, India • prateekvashishtha6@gmail.com • LinkedIn • GitHub • LeetCode

EDUCATION

Bachelor of Technology in Computer Science and Engineering
Vellore Institute of Technology, India

(Sep 2023 – Sep 2027)
CGPA: 8.69 / 10.0

SKILLS

AI & Voice Tech: Voice AI Orchestration, Conversational AI, Prompt Engineering, Agentic Workflows, Function Calling, RAG, STT/TTS Pipelines, Guardrails, LLM APIs (OpenAI/Anthropic)
Languages & APIs: Python, SQL, JavaScript, RESTful APIs, WebSockets, FastAPI, Flask, Django, OAuth2/JWT
Databases & Infrastructure: PostgreSQL, MySQL, Redis, Kafka, SQLAlchemy, AWS (EC2, S3, RDS), System Architecture
Tools & Deployment: Docker, Git, CI/CD, Postman, Streamlit, React.js, Next.js
Forward Deployment: Rapid Prototyping, Failure Mode Monitoring, CRM & System Integration

WORK EXPERIENCE

Autoload AI Systems Pvt. Ltd. Noida, India
SDET Intern – AI Testing & Automation (Jun 2026 – Aug 2026)

- Architected an AI-driven **Prompt-to-Script** translation engine leveraging **prompt engineering, guardrails, and LLM APIs** to convert natural language queries into automated test scripts, cutting creation time by **35%**.
- Engineered high-throughput microservices using **Python, FastAPI, Flask, and WebSockets** to stream automated agent executions to live dashboards, monitoring failure modes across **1,000+ daily test executions** with **98% reliability** and cutting debugging latency by **40%**.

Indian Council of Agricultural Research – IISWC Dehradun, India
SDE Intern (Dec 2025)

- Interfaced directly with non-technical domain stakeholders to translate real-world requirements into **Krishi Rakshak**, building dynamic React/Next.js dynamic components that achieved **95%+ accuracy** matching user queries to erosion risk tables for **500+ users**.
- Built resilient RESTful APIs in **Python and Flask** implementing **function calling** concepts to ingest external environmental data APIs, optimizing backend response latency by **40%**.

PROJECTS

TikiTaka | Distributed Event-Driven Telemetry Platform [GitHub] Aug 2026

- Architected a high-concurrency event-driven telemetry engine using **FastAPI, Python, and Next.js**, orchestrating REST API integrations and **function calling / tool use** across external platforms with **<120ms response latency**.
- Designed a **Kafka and Redis** streaming architecture handling **50,000+ logs/sec**, optimizing agentic data pipelines and execution throughput by **50%** across containerized **Docker** nodes.

Tech Stack: Python, FastAPI, Django, LLM APIs, Kafka, Redis, Docker, WebSockets, PostgreSQL

Employee Attrition Management System | AI Predictive & Insights Platform [Live] [GitHub] Nov 2025

- Built a full-stack decision-support platform in **FastAPI, Streamlit, and MySQL**, processing **10,000+ employee records** with **<200ms inference latency**.
- Integrated natural language explainability insights powered by **RAG and structured prompt templates**, improving risk model recall by **18%** across persisted historical profiles.

Tech Stack: Python, FastAPI, Streamlit, RAG, XGBoost, SHAP, SQLAlchemy, MySQL, REST APIs

CERTIFICATIONS

- AWS Certified Developer - Associate** (June 2026)
- AWS Certified AI Practitioner** (June 2026)
- Oracle Certified Data Science Professional** (Sep 2025)

POSITIONS OF RESPONSIBILITY

- Lead, Public Relations & Outreach** – UI/UX Club, VIT (Aug 2025 – Mar 2026)
- Core Member, Content Team** – AI Club, VIT (Nov 2024 – Mar 2025)
